## Safe Stepping

Shur-Step™ is a line of non-skid tape designed to provide maximum skid resistance on a wide variety of floor types and surfaces, including the powder coated paint finishes found on lawnmowers, truck beds, snowmobiles and other commercial products. Low profile, high-strength and water resistant, Shur-Step tape features a self-adhesive backing that applies in seconds. Finely ground abrasive particulates provide a sturdy footing, indoors or outdoors.

Inquiry Card #38

## Next Generation Cart

The Ladder Cart is an enhanced maintenance cart with unique ladder management. Its design provides an easier way to store, secure and maneuver equipment. Rubbermaid's Ladder Cart provides a safe, secure means of transporting a six-foot step ladder as well as other awkward materials, such as four-foot fluorescent bulbs. It also features tool and material shelves and a locking metal cabinet option.

## Have the Power

The Reinforcer® is a patented carbon fiber technology system that provides an advanced alternative for repairing and strengthening foundation walls. It is an externally bonded Carbon Fiber Reinforced Polymer (CFRP) "strip" or "strap" that is only 4 inches wide and .045-inch thick. Lightweight, non-corrosive and virtually impossible to stretch, the carbon fibers form in an epoxy resin matrix which has a tensile strength of more than 350,000 pounds per square inch, making it 10 times stronger than steel (36,000 psi).
